

**1** Before you can download the file to your phone, you will need to make sure third party apps are allowed on your device.

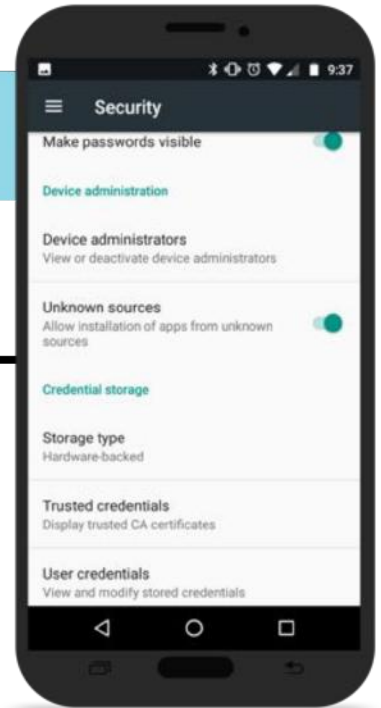

**2**

First goto Menu and then Settings

Choose **Security**

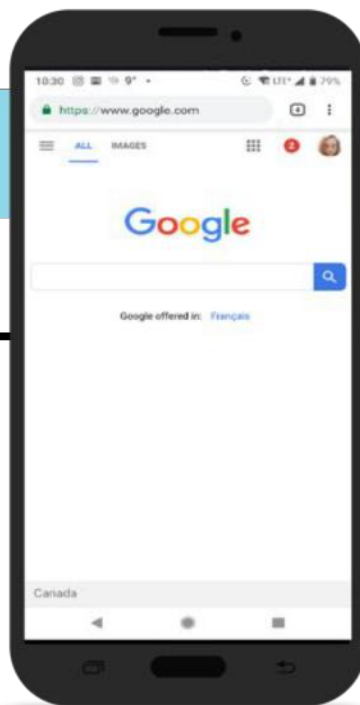

Check **Unknown Sources** to allow your phone to install apps from web browser

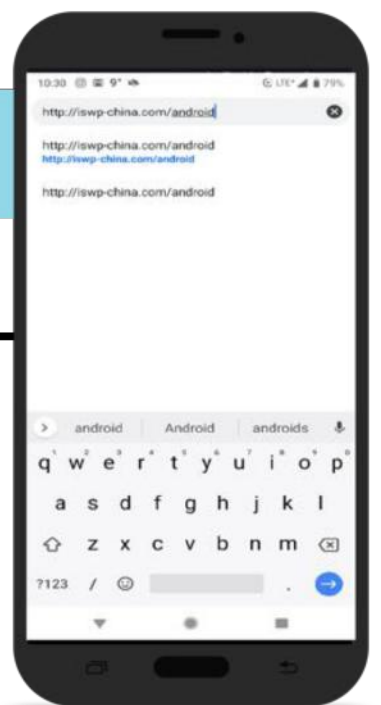

**3**

Open Google Chrome (or an internet browser of your choice)

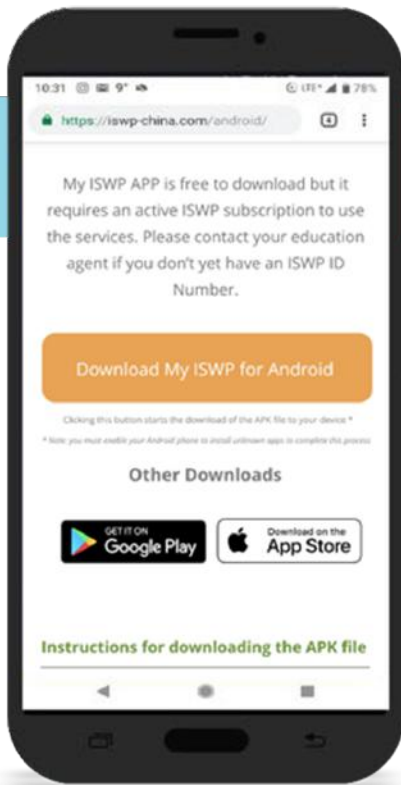

Click on the address bar at the top of your screen.

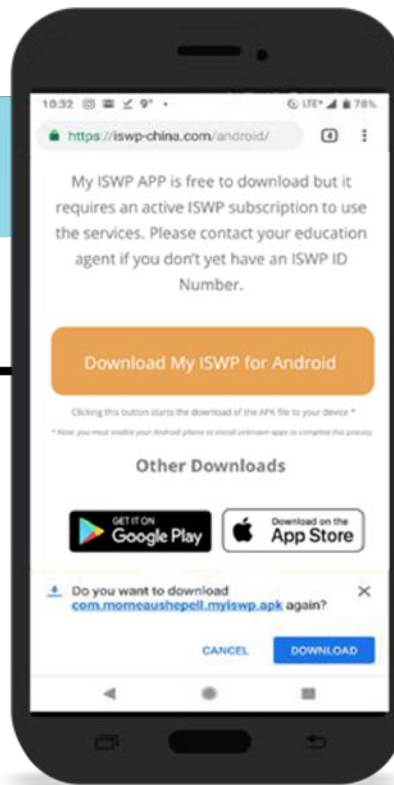

Type in the following web address:  
**<https://iswp-china.com/android>**

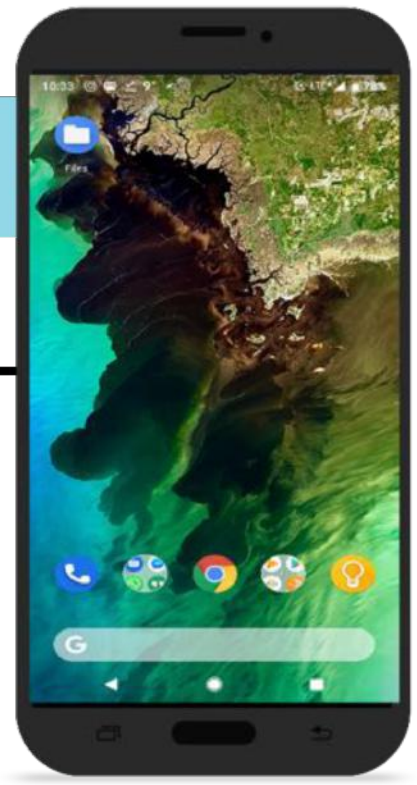

4

Click on the **download button** in the middle of the page.

Click **Download**. You should be able to see it downloading on your device. (Note, the file format will be .apk)

Once it's downloaded, open your **downloads folder**

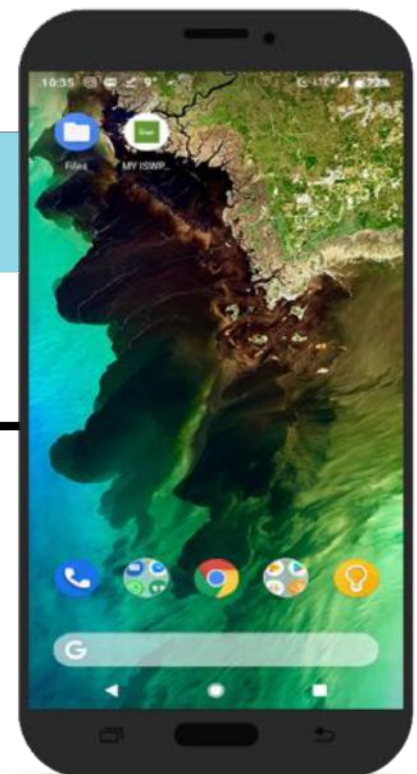

5

Tap on the APK file you just downloaded (called ISWP.apk)

select **'yes'** to install

**Congratulations!**  
You just downloaded ISWP app
